

# Graffiti Clean Up Action Day

Graffiti vandalism is a common complaint from members of our community. It creates the perception that some areas are unsafe and potentially have an increased level of criminal activity.

KESAB *environmental solutions* is holding a Graffiti Action Day on Friday November 18 2011 to unite everyone who works tirelessly to remove graffiti from public property.

## What does the Action Day involve?

Graffiti Action Day is similar to what you face every day – lots of graffiti to remove! However, on this day we will be uniting as communities to make a statement as we remove graffiti together.

Your volunteer supervisor will have further information for you closer to the day.

## Registration

Please register your interest in participating on the day by informing your volunteer supervisor.
